Re: Reply Comments, Response to Initial Regulatory Flexibility Analysis; Protecting the Privacy of Customers of Broadband and Other Telecommunications Services, WC Docket No. 16-106.

Dear Ms. Dortch:

On September 7, 2016, Glenn Lurie, Tom Keathley, Bob Quinn and Joan Marsh of AT&T met with Chairman Tom Wheeler and Brian Regan of the Wireless Telecommunications Bureau. During the course of the meeting AT&T advocated for a FCC privacy framework that is consistent with the long standing FTC framework which is focused on potentially harmful uses of consumer data, specifically, sensitive information or information shared with a third party. AT&T reiterated its position that privacy law should not treat similar technologies within the communications sector differently and that customers consumers expect to have their information protected based on the sensitivity of that information, not the entity that's collecting it.

Sincerely,

A handwritten signature in black ink that reads "Jacquelyne Fleming". The signature is written in a cursive, flowing style.
