**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition provides jobs, develops new ideas, and produces new technologies!! It allows consumers a choice. Net neutrality spawns educated choices, which equates to smarter consumers. Educated consumers do better in society by having drive and productivity. A driven populous fuels our economy which is now a global one. The American people must compete in the global economy to be relevant!! Our children depend on being relevant in the future global macrocosm.
