**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I now have a local IPS provider and the service is incomparable to what I was receiving with ATT and previously Comcast.

We currently are on part fiber connection awaiting upgrade to full fiber soon. We are paying much less with the local IPS provider because they are competitive. We are real people to our IPS provider who belong to the community at large and as such go all out and give us excellent customer service. I do not want a monopoly on internet providers. I felt I was nothing more than data when trying to get service previously from ATT or Comcast; they charged more each year and gave less and poorer service for both internet and phone services. I support broadband competition as well as Net Neutrality.
