Implementation Date: October 30, 2018

Locations: French Lick office, Lyons office, Ellettsville office

Description of Planned Network Changes: Due to vendor equipment support expirations two DS0 switches in the network are being downgraded to remote offices. The French Lick office with CLLI Code FRLCINXADS0 and the Lyons office with CLLI Code LYNSINXADS0 will become remotes off the existing Ellettsville host office, CLLI Code ELVLINXADS1.

Description of Reasonably Foreseeable Impact of Planned Network Changes: The modifications will result in more efficient use of facilities and allow for consolidation of services at the host office where vendor equipment support is current and on-going.
