**INDEPENDENT COMPLIANCE OFFICER’S REPORT ON CHARTER’S
INTERCONNECTION PARTIES AND DATA FILING FOR FIRST QUARTER 2019**

SEPTEMBER 13, 2019

Hon. Barbara S. Jones (Ret.)
BRACEWELL LLP
1251 Avenue of the Americas
New York, NY 10020

INTRODUCTION

The Independent Compliance Officer (“ICO”) hereby submits this report pursuant to the Settlement-Free Interconnection Condition (the “Interconnection Condition”) of the order issued on May 10, 2016 by the Federal Communications Commission approving the merger of Charter Communications, Inc., Time Warner Cable Inc., and Advance/Newhouse Partnership (as a combined entity, “Charter”). This report addresses Charter’s July 15, 2019 quarterly interconnection report (the “Q2 2019 Report”). For the reasons set forth below, the ICO believes that the Q2 2019 Report complies with the terms of the Interconnection Condition.

OBSERVATIONS

I. Description of the Q2 2019 Report

The Q2 2019 Report contains all the information required by the Interconnection Condition: (1) the counterparties corresponding to each Interconnect Exchange Point are listed on both the “summary” and “utilization” sheets; (2) aggregate link capacity between Charter and each Interconnection Party at each Exchange Point is listed on the summary sheet; (3) the summary sheet provides the aggregate traffic exchanged in each direction; and (4) the utilization sheet displays the percentage of time within the reporting period that each port was over 75% capacity in the dominant direction. *See App’x B § III(3)(a), (b), and (c).*

II. Assessment of the Q2 2019 Report

A. Reliability of the Process

The ICO has confirmed with Charter that its process for generating the Q2 2019 Report is the same as the process used for generating prior reports. As a result, the ICO remains confident in the reliability of the process used to generate the Q2 2019 Report for the reasons set forth in prior reports.

B. The Data

[BEGIN HIGHLY CONFIDENTIAL INFORMATION]

[END HIGHLY

CONFIDENTIAL INFORMATION]

RECOMMENDATIONS

The ICO has no new recommendations with respect to the quarterly interconnection reports.
