**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I currently use Sonic for my home DSL and home landline as well as the landline and DSL for our business and our small business. I rely on them to provide excellent customer service at fantastic prices.

With the large corporations like AT&T, I call and get shuttled around voice trees and end up talking to a customer service rep in India who doesn't understand me or my company and personal needs.

With Sonic, I get local care from people in my community. We already have too many monopolies with large corporations taking over everything in our lives.

Please let us keep our provider local. Keep our jobs local. Keep our small business local. Don't continue to let corporate greed end competition and also keep our companies with net neutrality. A company like Sonic cares enough about their customers that they won't throttle our internet just to be greedy and steal more of our money that we struggle so much to make as a hardworking American family.
