information regarding Company operations that would be useful to competitors. Further, the Plan is not intended for public consumption. GlobalVRS would not otherwise make this Plan publically available under any circumstance. Release of this Plan to the public could cause GlobalVRS irreparable and inestimable harm.

GlobalVRS requests that the Plan be withheld from public inspection, accordingly. Should disclosure of the Plan be requested, GlobalVRS requests that it be informed of such request so that it may take appropriate action to safeguard its interests.

In support of its request and pursuant to Section 0.459(b) of the Commission's rules, Global VRS states as follows:

1. Identification of the specific information for which confidential treatment is sought.

GlobalVRS requests confidential treatment of its At-Home VRS Call Handling Pilot Program Compliance Plan.

2. Identification of the circumstances giving rise to the submission.

GlobalVRS is providing this information in compliance with 47 C.F.R. §64.604(b)(8).

3. Explanation of the degree to which the information is commercial or financial or contains trade secret or is privileged.

The Plan constitutes highly confidential operations information that could be useful to competing entities. This information is safeguarded from competitors and is not made to the public accordingly.

4. Explanation of the degree to which the information concerns a service that is subject to competition

The Plan involves video relay services, a highly competitive service served by an exceptionally limited number of providers.

5. Explanation of how disclosure of the information could result in competitive harm.

Disclosure of the Plan could cause substantial competitive harm to GlobalVRS, because other video relay service providers would gain access to critical operations information and be able to assess the Company's organization, structure, and nature of its current and future operations; information that would be useful in competing against GlobalVRS and undermine the Company's ability to compete in the provision of video relay services as well as video remote interpreting.

6. Identification of any measures taken to prevent unauthorized disclosure.

GlobalVRS has ensured that such Plan is not disclosed to competitors, the public, or third parties.

8. Justification of the period during which the submitting party asserts that the material should not be available for public disclosure.

This Plan is being submitted by GlobalVRS. GlobalVRS requests that the Plan provided in its response generally be treated as confidential indefinitely as the Company cannot identify a date certain by which this information could be disclosed without causing irreparable competitive harm to GlobalVRS.
