**Docket No. 02-6**  
**Waiver for Deadline for Form 470 for 2019**

Dear FCC Representative,

I am writing on behalf of Applicant Veritas Academy, BEN: 17012502 to request a waiver for the deadline of submitting our Form 470 for the 2019 funding year. We were funded for category 1 for the 2019, but given this was our first time to receive Fiber Optic Internet Services, we did not realize that the provider was only responsible for getting the service into the building but not responsible for the internal connection. Without the internal connection that falls under category 2, we are not able to use the service yet. The category one project was completed in August of 2019 and that is when we realized their responsibility ended with just having the internet in the building, and by that time, the deadline for filing form 470 for 2019 was already passed. A representative of FCC advised us to complete the form 470 for category 2 and the only available year for that form was 2020. My request is that you **kindly move our form 470 back to the 2019 funding year** and allow us to complete form 471 for 2019 and finish the project with the category 2 service this year.

Thank you for your kind consideration!

Sincerely,

Susie Brooks
