**Re: Concord Telephone Exchange, Inc. - Notice of Network Change**

Dear Ms. Dortch:

Pursuant to Section 51.325 – 51.335 of the Commission's rules, Concord Telephone Exchange, Inc. ("Concord") hereby submits the attached: Certification of Public Notice of Network Change under rule 51.329(a); Public Notice of Copper Retirement under rule 51.333; and Certification of Public Notice of Copper Retirement under rule 51.333. Specifically, Concord is providing notification of the replacement of copper distribution and loop facilities with fiber-to-the-home facilities in a certain digital service area (DSA) located in Knoxville, TN. Upon completion, Concord will provide services through its fiber optic network.

All of the customers served by copper at these locations purchase "plain old telephone service" (POTS). Following transition to fiber, Concord will continue to offer these customers the same POTS service over fiber at the same or better price as they received on copper facilities. There will be no change in the underlying features and functionalities in their service; this is not a transition to IP-based service, and Concord will offer these customers the same regulated service they have today.

Please contact me should you need any further information.

Sincerely,

A handwritten signature in black ink that reads "Jennifer R. Heise".
