To whom it may concern,

I am a seventy year old retired  
cosmetologist and cytotechnologist who has  
had an eating disorder since Kindergarten.

I have found the answer to my  
suffering in overeaters anonymous a  
program much like Alcoholics Anonymous

I have been a member of the phone  
meetings for the past five years. The support,  
counseling, and friendships cannot be  
measured that we receive daily from  
these phone meetings. My area does not  
have any face to face 90 day Q.A. meetings  
which is what I need for my health.

Canceling these conference calls would  
be a catastrophic loss to many dependant  
people. There are no other options for us.  
Please reconsider taking these meetings  
away from us!

Thank you,  
Alice Cregut
