Subject: ERate Form 470 Response

Diane,

I am sending this correspondence as I would like to speak with you about the service requirements listed within your recently filed Form 470 Application Number: 304690001047907 for MUSCOGEE COUNTY SCHOOL DIST on 10/19/2012 for the upcoming 2013-2014 E-Rate funding. EarthLink Business, and its licensed subsidiaries, have been providing phone services (local & long distance), internet access, mobile, and hosted IP phone services, where available, to approximately 1000 E-Rate customers throughout the US. I would like to obtain a better understanding as to how your current service inventory is deployed. I can then prepare a competitive proposal for your service needs. Please let me know if the opportunity permits for a brief call to converse further or if any RFP documents are available.

I look forward to hearing from you.

Sincerely,

OJD

Oscar J Danzey

Strategic Account Executive
