Subject: Muscogee County School District USAC Form 470

Diane,
In reviewing the posted USAC Form 470, I have a couple of questions before I can prepare an accurate proposal for Muscogee County School District.
Here is a list of devices needed as listed on the 470. Please feel free to correct any misunderstandings I have.

First, there will be 900+ devices. Second, they will be divided into the following categories:
400+ Smart phones
300+ Standard Cell Phones
100+ Rugged, Construction Grade Cell Phones

Here is where I get confused. The next item listed is 100+ Air Cards / Push-To-Talk. Is that 100+ of each or 50+ of each? Then the last item is 100+ Push-To-Talk, again.
That all totals more than 900+. I will also need to know how many shared minutes you will require.

If you can help me with this, I will begin preparing our proposal. I will also give you the information you requested on your tethering and hot spot options, refreshing cycle and other information.

I thank you for your help with this.
Steve
