Re: *Space Exploration Holdings, LLC, IBFS File No. SAT-MOD-20200417-00037; RM-11768*

Dear Ms. Dortch:

This is to inform you that, on September 22, 2020, Gwynne Shotwell from Space Exploration Technologies Corp. (“SpaceX”) spoke with Commissioner Rosenworcel to discuss the above referenced proceedings.

SpaceX began by providing an overview of its progress to date in deploying its Starlink constellation, including beta testing that confirms latency consistently below 40 ms. SpaceX also explained why the record does not support initiating a rulemaking to change the rules for the 12.2-12.7 GHz band. Initiating any manner of proceeding based on the proposals from those aligned with MVDSS licensees risks harming service to consumers in the most rural and remote areas of the country.

Sincerely,

/s/ David Goldman
