Re: Notice of Ex Parte Presentation

Petition for Rulemaking to Permit MVDDS Use of the 12.2-12.7 GHz Band
for Two-Way Mobile Broadband Service, RM-11768

Dear Ms. Dortch:

On Wednesday, September 23, 2020, Michael S. Dell, chairman and chief executive officer of Dell Technologies, Inc. spoke with FCC Chairman Ajit Pai. Sean Spivey, Wireless and International Legal Advisor to Chairman Pai, also attended the call. Mr. Dell discussed the critical need for dependable and resilient communications networks for teleworking, telehealth, distance learning, and basic communications. He said that investing in next-generation telecommunications network infrastructure will better prepare the United States for its digital future. And he encouraged the Commission to continue identifying spectrum for 5G wireless deployment, including the 12.2-12.7 GHz band. Please contact me with any questions regarding this submission.

Sincerely,

/s/ Trey Hanbury
