47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Sonic ISP is great.

Broadband is critical these days.

I love Sonic's DSL service : it's a good price with good performance and good customer support. I look forward to getting Sonic fiber in my area.

Sonic.net is also committed to providing "Net Neutrality", which is very important to me.

It is important to have competition in the market so that providers have incentive to provide the products, services and prices that the customers want versus what they can "get away with" because they are the only game in town.
