Important service notification regarding your Verizon Wireless bill.

Dear Alexius M Deters,

After reviewing our records, we noticed that you are using your LTE Internet and Home Phone device with an unlimited data plan that is designed for smartphones. Please contact Customer Care at 1.800.922.0204, or visit verizonwireless.com/MyVerizon to change your plan to one that is compatible with your device.

If you don't change your plan to one that is compatible with your device by October 31, 2016, this line will be disconnected.

Until you've changed to a compatible data plan, any updates you make to your account may cause your current smartphone data plan to be removed from this device, and data usage on this device will be billed at $1.99/MB.

We apologize for any inconvenience, and thank you for being a Verizon Wireless customer.

Sincerely,

Verizon Wireless
