Re: *Ex Parte* Notice: *Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband Networks* – IB Docket No. 13-213

Dear Ms. Dortch:

On September 26, 2016, Harold Furchtgott-Roth of Furchtgott-Roth Economic Enterprises, consultant to Globalstar, Inc. (“Globalstar”), spoke by telephone with Erin McGrath, Legal Advisor to Commissioner Michael O’Rielly, regarding the Commission’s proposed rules in the above-captioned proceeding.¹ During this call, Mr. Furchtgott-Roth urged an expeditious resolution to any outstanding issues in this proceeding. As Globalstar has demonstrated, the Commission’s proposed rules would generate consumer benefits by adding 22 megahertz to the nation’s broadband spectrum inventory and alleviating congestion in the 2.4 GHz ISM band.

Pursuant to section 1.1206(b)(2) of the Commission’s rules, 47 C.F.R. § 1.1206(b)(2), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceeding.

Respectfully submitted,

/s/ Regina M. Keeney
