

Dear FCC,

During my filing of Form 486 for E-Rate this year, I realized that last year when we filed, I checked the box stating that we were compliant at that time. After further research and checking, I found that we did not have all of the required things completed. At the time I submitted our 486 last year, in good faith I checked the box thinking that we were compliant. This year's 486 is filed asking for a waiver because we did not have everything in place by July 1st. After double-checking with USAC, I now have everything done except for the advertised public meeting in October next month.

We would like to update our Form 486 for FY 2015.

Thank you very much,

Leslie Carlson
