PP Docket No. 92-234

MOTION FOR EXTENSION OF TIME

General Instrument Corporation ("GIC") hereby moves for a one-week extension of time, to and including January 29, 1993, to file its Reply Comments in the above-captioned proceeding.

GIC filed its original Comments on the due date, December 24, 1992. However, apparently because of the early Commission closing on that date, Titan Satellite Systems Corporation ("Titan") did not file its Comments until December 28, 1992, and its Comments were unavailable to GIC until the following day. Titan's Comments contain numerous statements to which GIC wishes to respond in order for the Commission to have an accurate and complete record in this proceeding. However, because of Titan's filing date and the fact that a holiday, as well as Presidential Inaugural events, will intervene between now and the due date for replies, it will be virtually impossible for GIC adequately to reply on the current due date, January 22, 1993.
