Re: Indecent Programming and Other Types
Of Materials on Cable Access Channels

Dear Ms. Searcy:

To my knowledge the City of Cleveland Heights has not received comments from our residents regarding problems with indecent programming on cable access channels. However, it is an issue about which we have concern and we would like any regulations to clearly state that the cable operator and the franchiser may agree to more stringent standards than those promulgated by the FCC with respect to indecent programming and other types of materials on cable access channels.

Very truly yours,

Kay Smith
