**Re: Petitions for Special Relief of Monongalia County, West Virginia and
Preston County, West Virginia for WDTV and WVFX, Docket No. 17-275,
CSR-8942-A, and WBOY-TV, Docket No. 17-274, CSR-8941-A.**

Dear Ms. Carey:

Gray Television Licensee, LLC, licensee of broadcast television stations WVFX-TV and WDTV, and Nexstar Broadcasting, Inc., licensee of broadcast television station WBOY-TV (together with WVFX-TV and WDTV, the “Stations”), hereby submit this joint letter in support of the above-captioned Petitions for Special Relief filed by Monongalia County, West Virginia and Preston County, West Virginia (the “Counties”) to include the Counties as part of the Stations’ local television market with respect to satellite carriers DIRECTV and DISH Network.

The Stations cooperated with the Counties to provide specific evidence in the Petitions of the Stations’ commitment to the Counties, including numerous examples of extensive local programming geared toward the Counties. The Stations agree that adding the Counties to the Stations’ local satellite television market would “provide immediate access to West Virginia news, emergency coverage, weather, sports, politics, and other information.” *See* Petitions, at 2.

We appreciate the Commission’s consideration of the Petitions and encourage their prompt grant.

Sincerely,

/s/

/s/
