WIRELINE COMPETITION BUREAU CONCLUDES THE 100 PERCENT OVERLAP CHALLENGE PROCESS

WC Docket No. 10-90

On August 11, 2017, the Wireline Competition Bureau published a list of study areas potentially subject to the 100 percent overlap rule and sought comment on whether the competitors in the study area codes (SACs) listed were in fact offering voice and broadband to 100 percent of locations in the relevant census blocks meeting the requirements in 47 CFR § 54.319(a).¹ This process implements the Commission's requirement that the Bureau conduct a biennial review to determine if any study areas served by rate-of-return carriers are 100 percent overlapped by unsubsidized broadband competitors and eliminate high-cost universal service support for any such carriers.²

The comments³ and reply comments⁴ submitted did not provide evidence to confirm that any of the 13 study areas preliminarily identified were in fact 100 percent served by unsubsidized broadband
