Subject: A Plea to Save Net Neutrality

Hi,

Net Neutrality is something I care deeply about and I am writing to urge you to protect it. I don't understand the desire to reverse Tom Wheeler's decision to protect Title II via Ajit Pai. I want the FCC to protect the free and open internet and challenge the big telecoms to provide better service, not worse.

The Internet is a public utility and it shouldn't be able to "charge" for different levels of service. This challenges the fabric of America itself. Right now, if I have a great idea and want to succeed, I can start a website, pay the fees, and the ISPs treat all traffic equally. If Title II is reversed, the ISPs could potentially block my website or throttle it because it is deemed "competitive." This is anti-free-market. I'm writing to urge you to treat it like a public utility.

I have written to Ajit Pai and commented on the FCC's website but fear my comments have fallen on deaf ears. Pai hasn't responded to my letters and I'm worried the vote before Thanksgiving will pass to repeal Net Neutrality without hearing from American voters.

Please listen to us -- we care deeply about the future of this country and I want this country to be a better place for my kids to grow up in, not worse. Repealing Net Neutrality gives big telecom companies more power. They already make billions. I start to feel powerless as an American citizen.

Vote for the future of America. Listen to your voters. I don't have millions to lobby but I have a voice.

Call at any time to discuss - 214-592-6583. Vote with your conscious on November 22nd and remember what the American voters have said. Not the big telecom lobbyists.
