Dear Mr. Chairman:

I want you to know that I strongly  
object to the broadcasting of political  
ads in my home that show horrible  
pictures of aborted fetuses. I ask that  
you allow the management of TV  
stations in my community to prevent  
this from occurring again. If you will  
not do this, at least allow the stations  
to air this kind of material at times  
when children will not be watching,  
and require the advertisor to publish  
in the local newspaper a warning and

Now, I don't care what this guy's politics are, and I don't care what his views on abortion are.

What I do care about is my 3 1/2 year old son, Charlie. I care about the other kids in this community. And I care about those women, and men, who have suffered the agony of miscarriage, still-birth, and abortion.

I admire someone who speaks up for what he or she believes - no matter how unpopular the view. But not this way. I'm all for this guy's right of free speech. But when the exercise of his freedom endangers my child - or yours - then it ends, right there! Showing these horrible pictures endangers our children and certain others. It's an outrage!

**HERE'S WHY I OBJECT**  
**It's Harmful to People**

I believe the airing of these TV spots presents a clear and present danger of inflicting harm upon my children and others in this community. In their statement to the FCC, joining our complaint, The Colorado Women Psychologists organization has this to say:

"It is our belief that these ads may be potentially harmful, particularly to children and certain populations of women: women who may have recently aborted, experienced a miscarriage or stillbirth, are experiencing an unwanted pregnancy..."

"Seeing an image of a fetus in the particular context and with the emotional delivery which is displayed in these ads may make a vivid impression and traumatize some children."

**There's No Warning**

These TV ads are run at all hours - including when children are watching. A warning seconds before the ad begins is hardly adequate for parents. A small child will not understand the warning. Further, the parent might not be in the room - or even in the house. The candidate should be required to publish a warning in the local newspaper well in advance so that parents have the opportunity, as they do with all other scheduled television programs, to exert some control over what their children are exposed to.

**It's Not Necessary**

We can convince people to eat vegetarian food - if we choose - without showing the slaughter of a cow, screaming in agony, on TV. We can teach children to cross the street

children in order to make a political statement. And to do so is outrageous!

# Fellow Coloradan:

In this space to ask you to help stop an act that's being forced upon our community.

You've probably been exposed to the political advertising broadcast by an anti-abortion candidate showing bloody, aborted fetuses. They are shown without adequate warning and in time you choose.

Don't care what this guy's politics are, and I don't care what his views on abortion are.

What I care about is my 3 1/2 year old son, Charlie. I don't care about the other kids in this community. And I care about those women and men who have suffered from miscarriage, still-birth, or infant death.

## WHY I OBJECT to these TV Spots

The airing of these TV spots is a clear and present danger to my children in this community. In their defense, I am writing to the FCC, joining our efforts. The Colorado Women's Rights organization has this

belief that these ads may be especially harmful, particularly to women and certain populations of women who may have experienced a miscarriage or stillbirth, are expecting an unwanted pregnancy,

an image of a fetus in the medical context and with the medical delivery which is displayed in these ads may make a negative impression and traumatize children."

These ads are run at all hours - when children are watching - seconds before the commercial. This is hardly adequate for a small child will not understand the warning. Further, the parent is not to be in the room - or in the house. Dear Mr. Chairman:

FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

I want you to know that I strongly object to the broadcasting of political ads in my home that show horrible pictures of aborted fetuses. I ask that you allow the management of TV stations in my community to prevent this from occurring again. If you will not do this, at least allow the stations to air this kind of material at times when children will not be watching, and require the advertiser to publish in the local newspaper a warning and schedule of these ads at least 48 hours before their broadcast.

*Mr. Chairman, this is an outrage and I want it stopped. Now!*

Respectfully,
