My fellow Coloradan:

I might use this space to ask you to help stop an act that's being forced upon our community.

You've probably been exposed to the political advertising broadcast by an anti-abortion candidate showing bloodied, aborted fetuses. They are shown without adequate warning and in time you choose.

Don't care what this guy's politics are, and I care what his views on abortion are.

Who I care about is my 3 1/2 year old son, Charlie. About the other kids in this city. And I care about those women and men, who have suffered the pain of miscarriage, still-birth, or abortion.

Someone who speaks up for what she believes - no matter how unpopular the view. But not this guy. All for this guy's right of free speech. But when the exercise of his speech endangers my child - or when it ends, right there! Show those horrible pictures endangers children and certain others. It's illegal!

WHY I OBJECT to Harmful to People

Because of the airing of these TV spots that are a clear and present danger of causing harm upon my children and others in this community. In their letter to the FCC, joining our lawsuit, The Colorado Women's Logists organization has this

our belief that these ads may be potentially harmful, particularly to children and certain populations of women: women who may have recently aborted, experienced a miscarriage or stillbirth, are expecting an unwanted pregnancy...

...showing an image of a fetus in the medical context and with the emotional delivery which is displayed in these ads may make a strong impression and traumatize children."

Why No Warning

TV ads are run at all hours - including when children are watching. Warning seconds before the program begins is hardly adequate for parents. A small child will not understand the warning. Further, the parent might not be in the room - or even in the house. The candidate should be required to publish a warning in the local newspaper well in advance so that parents have the opportunity, as they do with all other scheduled television programs, to exercise some control over what their children are exposed to.

safely without showing the bloodied, mutilated body of a 4 year old that's been run over by a cement truck. And, we can teach people about the pros and cons of abortion without showing aborted fetuses on TV.

It is simply not necessary to offend a community's sense of decency and target the well-being of its children in order to make a political statement. And to do so is outrageous!

Because of the airing of these TV spots is a clear and present danger of causing harm upon my children and others in this community. In their attempt to the FCC, joining our lawsuit, The Colorado Women's Rights organization has this

our belief that these ads may be potentially harmful, particularly children and certain populations of women: women who may have had a child aborted, experienced a miscarriage or stillbirth, are expecting an unwanted pregnancy...

...showing an image of a fetus in the medical context and with the medical delivery which is discredited in these ads may make a bad impression and traumatize children."

's No Warning

TV ads are run at all hours - even during the night - without warning seconds before the program begins. A small child will not understand the warning. Further, the parent might not be in the room - or even in the house. The candidate should be required to publish a notice in the local newspaper well in advance so that parents have the opportunity, as they do with all other scheduled television programs, to exercise some control over what their children are exposed to.

safely without showing the bloodied, mutilated body of a 4 year old that's been run over by a cement truck. And, we can teach people about the pros and cons of abortion without showing aborted fetuses on TV.

It is simply not necessary to offend a community's sense of decency and target the well-being of its children in order to make a political statement. And to do so is outrageous!

Dear Mr. Chairman:

I want you to know that I strongly object to the broadcasting of political ads in my home that show horrible pictures of aborted fetuses. I ask that you allow the management of TV stations in my community to prevent this from occurring again. If you will not do this, at least allow the stations to air this kind of material at times when children will not be watching, and require the advertiser to publish in the local newspaper a warning and schedule of these ads at least 48 hours before their broadcast.

Mr. Chairman, this is an outrage and I want it stopped. Now!

My fellow Coloradoan:

Right this space to ask you to help stop an act that's being forced upon our community.

You've probably been exposed to the political advertising broadcast by an anti-abortion candidate showing how bloodied, aborted fetuses. They are shown without adequate warning and in time that he chooses.

I don't care what this guy's politics are, and I don't care what his views on abortion are.

What I care about is my 3 1/2 year old son, Charlie. I care about the other kids in this community. And I care about those women and men, who have suffered the pain of miscarriage, still-birth, and abortion.

Someone who speaks up for what she believes - no matter how unpopular the view. But not this guy. All for this guy's right of free speech. But when the exercise of his free speech endangers my child - or when it ends, right there! Show those horrible pictures endangers children and certain others. It's illegal!

'S WHY I OBJECT to Harmful to People
