I'm a homemaker, mother of four children & sometimes I wonder what kind of world my children are growing up in. I believe our freedom of speech is being taken away from us as Christians, especially when you speak of abortion. Any other group of people having their freedom of speech rights taken away from them would be considered outrageous. But these day it seems as if it is open season on all Christians who ~~exercise~~ exercise their freedom of speech rights. As a concerned citizen of this country, I'm asking that the commercials that display the truth of abortion continue.

To Whom It May Concern:

Please be advised that we support
freedom of speech. Therefore, we support
commercials which show the truth about
abortion, even though they may not be
very pretty, and ask that you allow
them to continue.

Thank you for allowing the truth about
abortion to be shown.

To Whom It May Concern:

I am writing regarding the graphic pro-life ads for congressional candidates.

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE DIRECTOR

I see no reason why the present policy of showing these ads should be changed. People having an abortion have a right to know exactly what an abortion is.

We see starving and dying children of Somalia on T.V., we see the millions of Jews that were killed in Germany on T.V., we see the dead of different wars on T.V. and I don't hear a public outcry about those graphic pictures.

People contemplating an abortion need all the information and facts they can get in order to make the correct choice. Surely the "Pro-Choice" people would agree to that. Keep showing the graphic ads.

Dear Sirs:

In regards to Political Campaign messages, I believe that the Networks and cable companies should not be allowed to "censor" those messages or advertisements. Freedom of speech is a first amendment right and the public has the right to be properly informed about the issues and the stand of the candidates. If the TV networks disagree with the candidates stance or feel there is objectionable material in the message, they can air a disclaimer or "warning" before the ad is aired. If such companies can dictate what a candidate talks about, or edit, or censor, the people may be shown only one side of a question or, worse still, may be given a false idea what the candidate stands for. Such changes can make the candidate look like he is saying something entirely different from what he or she intended. I think the public should decide what to watch or let their family watch. As it is up to us to decide which candidate to vote for. Thank you for allowing me to voice my opinion on this matter.

Sincerely,

Laurie Marcus
