DOCKET FILE COPY ORIGINAL

NOV 01 2018

As a taxpayer, and a free conference calling client, I ask you to please reconsider
 acting on WC Docket No. 18-155. My free conference calling services are currently at
 risk of being completely eliminated and costing me, millions of others and our
 businesses.

I am urging you to refrain from eliminating services that I and millions of other
 Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free
 conference calling services are left alone. In fact, they stand to gain upwards of \$80
 million.

However, if the FCC does decide to remove these services, I and millions of other
 American citizens and American businesses will be immediately and negatively
 affected. We will no longer be able to use these services for free and will instead be
 forced to pay for conferencing services provided by the long-distance carriers if we
 want to reach our non-profit organizations, our families, our churches, singing calls,
 news calls, prayer groups, support groups, board meetings, committee meetings,
 startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free
 conference calling.

Do not take away my free conference calling services and further line the pockets of
 major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its
 rulemaking in WC Docket No. 18-155.

Signed,

Your Name:

Ralph K Shirk

FCC Mail Room

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed,

Your Name:

George H Martin

Date: 10-20-18

Dear sir, As a Conference line listener, I would make a comment to keep the free conference calling services as we ~~had~~ have it now.

570-966-3975

(Please)

Your truly George

WC Docket #18-155 regarding updating
The Inter-carrier Compensation Regime including conference
calling services.

Please do not take away my free conference
calling service as we use it frequently

Thank you!
