

For people with hearing loss who prefer to  
speak, listen and read captions on the phone.

## CapTel® Service

Captioned Telephone Service (CapTel) through Alabama Relay offers anyone with a hearing loss the ability to communicate on the phone independently.

Listen, read and respond to callers easily with the CapTel phone!

- 1 The CapTel user speaks directly to the other party using a CapTel phone.
- 2 The other party speaks directly to the CapTel user, with all of their words transcribed by a trained operator into text using voice-recognition technology.
- 3 The CapTel user listens with their residual hearing and reads the conversation on the CapTel display screen.

### HOW TO GET A CAPTEL PHONE

Alabama Relay residents may qualify to receive a CapTel phone at little or no cost through the Alabama Telecommunications Access Program (ATAP).

For more information on ATAP, go to page 11.

Alabama Relay residents who do not qualify for a CapTel phone through the ATAP may purchase a CapTel phone at [weitbrecht.com/captel-alabama.html](http://weitbrecht.com/captel-alabama.html)

[alabamarelay.com/captel](http://alabamarelay.com/captel)

### **TTY Payphone**

**711 or 800-548-2546**

TTY users using a TTY payphone can use Alabama Relay to assist in connecting calls.

### **900 Pay Per Call**

**900-230-4323**

Relay users can dial the toll-free 900 number to connect with Alabama Relay. A relay operator will then dial the requested outbound 900 service number.

The caller is responsible for direct billing.

### **International Calls**

**605-224-1837**

Alabama Relay allows callers to place and receive calls to and from anywhere in the world in English or Spanish languages.

### **Directory Assistance**

Alabama Relay will relay Directory Assistance (DA) calls between relay users and a DA operator. After obtaining the number, the caller may choose to place the call through Alabama Relay or dial directly.

### **Dial 911 for Emergency Calls Only**

711 is **NOT** an emergency number.

In case of an emergency, relay users should call the TTY-equipped 911 center or emergency services center in their communities.

Alabama Relay can process emergency calls, but it may take longer.

TTY users who cannot obtain emergency services via 911 may call 711 and inform the relay operator there is an emergency.

**Para personas que prefieren  
comunicarse en español.**

- La persona que llama marca 711 y se comunica con un operador de relevo. Luego, la persona que llama habla, "Hola, ¿Cómo estás?"
- El operador de relevo escribe lo que dice la persona que llama.
- 3** El usuario de TTY lee en el dispositivo las palabras habladas

**711 o 800-548-8317**  
**Español a español**

El Servicio de Relevo de Alabama es un servicio de asistencia gratis para todos que brinda acceso telefonico completo a fin de poder comunicarse con personas sordas, con dificultades para escuchar, sordociegos y aquellas personas con dificultad del habla. Llamando con un telefono regular o teletexto (TTY, un telefono especial con teclado similar a una máquina de escribir), el relevo facilita la comunicación, las 24 horas del día y los 365 días del año.

Los usuarios del servicio de relevo no necesitan memorizar el número de servicio de relevo. Simplemente marca 711 para comunicarte con el servicio de relevo. La confidencialidad entre el usuario y el operador de relevo está garantizada por la Comisión Federal de Comunicaciones (FCC, por sus siglas en inglés) mediante la reglamentación correspondiente.

Usar el servicio de Relevo de Alabama es fácil. Una persona oyente o una persona sorda pueden marcar el 711 para comunicarse con un operador de relevo. El operador de relevo actúa como intermediario en la conversación, leyendo los mensajes escritos en el TTY a la persona oyente mientras escribe las respuestas en el TTY para la persona con dificultades para escuchar.

#### **BY THE COMMISSION:**

By notice issued August 4, 1987, this Commission sought comments pertaining to the establishment of a dual-party relay system which would entitle the hearing and speech impaired community of Alabama to the same access and use of the telephone network as those without such impairments. Comments have been received from AT&T Communications of the South Central States, Inc.; Continental Telephone Company of the South - Alabama; General Telephone Company of the South; South Central Bell Telephone Company; and Hopper Telecommunications Company, Inc. All comments received were supportive of implementation of this system.

Upon review of the comments received and upon further studies and investigation into this matter, the Commission is of the opinion that the implementation of a dual-party relay system will create numerous benefits for the citizens of Alabama. Its implementation will have a positive effect on the business community, will expand the job market in Alabama, and will benefit all hearing impaired as well as the handicapped community as a whole. It is the stated policy of this Commission to achieve universal telephone service to all citizens of this state and the dual-party relay system will be a substantial step forward in achieving this goal.

The Commission, being of the opinion that the implementation of the dual-party relay system is in the best interest of all citizens of Alabama, hereby states its intention to achieve implementation of this system at the earliest possible date and solicits the cooperation of all local exchange companies in the State to achieve same.
