

We support movement to attain Texas TV channels in Panola County. We are tired of seeing the shootings and stabbings daily from the Shreveport and Bossier City area! We pay the bill, therefore we should get what we want, and the bill is hefty.

Thank you!  
Mr. & Mrs. Dan L. Melton

Re: Petition for Texas Satellite Networks

Dear Judge Jones:

My name is Cindy Ellison, and I live at 600 N Adams St, in Carthage.

I am in support of the petition to add KLTV and KFXK to our satellite TV networks in Panola County. I have lived in Panola County for 32 years and never received any Texas channels. I do believe we deserve this right.

Please add my vote FOR TEXAS TV NETWORKS!

Thanking you in advance for your efforts.

Sincerely,

A handwritten signature in black ink, appearing to read "Cindy Ellison", with a long horizontal flourish extending to the right.

Cindy Ellison

I am a Panola County resident who supports the petition to add KLTV and KFXK to our Direct TV satellite TV network.

Please add my email to the Letters of support will be included in the official petition to the FCC.

Thank you,

Joe and Julie Perez

Be Kind to One Another

Subject: Tyler stations

I was unable to attend the meeting, but I am in full support of this petition to add the Tyler stations to our channel lineups. I hope that not only do we get KFXK 51 and KLTV 7 but also KYTX 19 and KETK 56 at some point. Of course, the most important to me is 51 because of the Saints vs. Cowboys issue. However, since storms usually come in and hit the Tyler area before us, I would also prefer to have the Tyler stations to get weather updates before they start affecting the Shreveport area and are already on top of us.

A few years ago, I helped my parents deal with this issue, and with a large antenna and the right satellite box with a tuner (which I'm not sure they make anymore) we were able to get the Shreveport stations via satellite and the Tyler stations OTA. I have never understood why they would limit you to a specific market if you live between the two and can pick up both for free with an antenna. I live in town and don't want to put a huge antenna up on my house, but I do want the Tyler stations.

Even if they can't let us have the stations from both markets, they should at least give us the ability to choose which one we want. You can already do this if you "lie" and get "snowbird" status, as someone mentioned in the article. The satellite companies have the channels ready to switch as soon as you change your address. It is only the government regulation that prevents them from giving us access to those channels. I believe that any station that could be received with an antenna should be available on our satellite lineups, regardless of what our ZIP code says our market is.

Thank you for your attention to this matter.  
Jonathan Duke

Subject: Adding TX stations

I am one of the many Panola Co residence that would love to have access to our local Texas stations. I would really like to know what is happening in Texas and around the East Texas area not Shreveport and Louisiana and Arkansas. Also the Fox channel out of Louisiana will primarily show the Saints game over the Cowboys. Even though I like the Saints I am a big Cowboys fan and would prefer to watch the Cowboys game and if you don't have ESPN you can't. I miss out on the Texas election coverage and other issues happenings in our Texas government. I really do not care what the Louisiana legislature and governor are arguing about or how bad their budget is. I do care about the Texas budget and what is happening with our legislatures which I don't get with the Louisiana stations. Please allow Panola County the option having the Texas stations added to their program choices.

Sincerely,  
Shannon Kate Ebarb

To: leeann.jones@co.panola.tx.us

Cc: Venita Judice

---

Judge Jones--

I enthusiastically support adding Texas stations to satellite TV networks in Panola County. I have watched televised news since the Viet Nam War, both local and national. Since I retired and moved to East Texas in 2010, I have almost quit watching local news. Every time I turn on Channel 3, 6, or 12, I lose interest in the Shreveport and Louisiana events. It is sad when I know more about Louisiana Governor John Bel Edwards than our Texas Governor Greg Abbott. I read the *Longview News-Journal* and *Panola Watchman* but still the news covered is not as up-to-date as breaking news and news programs on TV. I have also voted in every election but one since I could vote. When living in other cities where I could get Texas news, I would sit up and watch the local and state election results. It was exciting and motivating to be involved in our political process.

I am very grateful for all the efforts of Venita Judice and your support to move forward to bring local news coverage to Panola County.

It is my opinion as well as my wife's that East Texas has suffered greatly by remaining in a vast void of media coverage. We have no reporters in our newspaper nor any local coverage by television other than token coverage by Louisiana stations. It is our strong belief that East Texas as a whole would benefit greatly by the proposed addition of the Texas Stations. It is our opinion that this addition would improve not only the economy but the well being of our Citizens. In a nut shell we need to know whats going on around us. We certainly have had no clue to this date. I am listing our phone number if we can help. Thank you for your interest and thank you for submitting our thoughts and concerns to those concerned.

## FCC petition

From: Susie Evers

Sent: Sat, Jun 16, 2018 at 2:33 pm

To: leeann.jones@co.panola.tx.us

---

Judge Jones,

I regret that I missed the meeting last week to express our support of the petition to the FCC for Texas TV networks for our county. My husband and I have requested this change from both Direct TV and Dish and have been told that we “have no choice.”

We have property and an address in Nacogdoches County and are aware that we could change our “effective billing address” to that property to get the Texas networks, but were concerned about the legal ramifications. Further, it just seems unreasonable to have to do that to get the programs that should be part of our service.

It seems like such an obvious thing to me. Surely it would be understood that concerned and involved citizens of any county would want the political and government news of the state they live in. It so frustrates me every election season that I keep seeing whose running in Louisiana and not Texas.

In addition, any person who supports the local schools knows that throughout the state, the athletics in our schools and in our districts are part of the “district of doom” – meaning really good competitive teams. Our fans are interested in the state-wide games and results for those sports activities not to mention the Rangers, Astros, and Cowboys. Why in the world wouldn’t we deserve to receive the regular sports programming for TEXAS sports from the TV service providers.

Besides government, politics, and sports there is always other state news regarding daily events and weather for Texas that would be far more useful and meaning.

Please add our names to your petition.

TX T.V. Station - I don't  
need to know how many  
were killed at Shreveport  
every night. Thank you  
N. Odono

Dream only good  
dreams!

I am writing in support of obtaining Texas channels for those of us in Panola County through our satellite provider. It is very frustrating to not be able to hear very much Texas news and weather. During recent tornado warnings that happen to include our area, we knew nothing about it until our adult children, who live in Longview, called to check on us because they were watching tv and caught the warning. We were also watching a cbs station out of Shreveport and heard nothing!! We live in Texas for goodness sake! Why are we forced to have Louisiana channels on our satellite???? We are rural and don't get antennae reception well at all. Receiving at least two channels would sure be a plus. I know I speak for my Mom who lives in Carthage as well. Please add these names to the petition.

Dear Judge Jone,

Will you please add both my husband's and my names to the FCC Petition to get Texas news stations added to our television lineups.

We have lived in Panola County for 25 years and would like to know what is going on in our area and the State of Texas in our news reports rather than those in Louisiana. The names to add are:

Robert R. Kaatz  
Nancilee K. Kaatz

Thank you very much for whatever you and our County Commissioners can do to help us with this matter.

Sincerely,

Nancilee K. Kaatz

To the Federal Communications Commission

We are petitioning you, the Federal Communications Commission, to add our local news stations as part of the Satellite Television Extension and Localism Act of 2010 and add KLTV and KFXK to our satellite line-ups. We live in Texas and we want to see Texas news.

Respectfully,  
William Marsalis

Vicki,

Here is the email that came back as undeliverable to Judge Jones. Thanks for getting it to her.

Judge Jones,

Please include my name in support of getting East Texas news on our television coverage in Panola County. I currently have DirecTV and receive news and weather from Shreveport, LA. I am supporting receiving Channel 7-KLTV and 51-FOX. It would be more pertinent to receive East Texas news and weather in Panola County.

Thanks,

Debra Berry

Please add my name to the petition. Would love to have Texas news and weather instead of Louisiana news and weather

Thank you,

We strongly favor the petition to  
add Texas stations to satellite TV local stations  
(Channel 7, Tyler & Channel 51 Longview)  
for the Panola County area. This will give us  
access to more complete Texas news and weather.
