Re: Application to Modify Facilities
Pursuant to MM Docket 92-87
Station KDEZ(FM)
Jonesboro, Arkansas

Dear Ms. Searcy:

On January 6, 1993, T.M. Jonesboro, Inc. ("KDEZ"), requested that it be given an additional 30-day period in which to file its application to upgrade from Channel 262A to Channel 263C2 as ordered in MM Docket 92-87, Report and Order, 7 FCC Rcd 5449 (1992).

KDEZ hereby requests an additional 30 days in which to file the application. KDEZ is very anxious to achieve the improvement in its facility and has been diligent in taking the steps necessary to file its application as expeditiously as possible. As stated in its letter of January 6, 1993, the licensee has obtained permission to use an existing tower. During the past 30 days, the licensee hired a surveying firm to accurately survey the location of the tower site. In addition, the licensee requested a structural analysis for the tower in order to determine whether the tower height could be increased. The tower utility company has taken longer than expected to provide its analysis. A short period of time is therefore needed to enable KDEZ to determine whether it will propose to increase the tower height in its application. Accordingly, KDEZ requests an additional 30-day period to file the application in order to implement its facility improvement.
