Re: Notice of Ex Parte Communication: In the Matter of Use of Spectrum Bands Above 24 GHz For Mobile Radio Services Notice of Proposed Rulemaking; GN Docket No. 14-177

Dear Ms. Dortch:

On November 3, 2017, representatives from AT&T and Economics, Inc. met with members of the Wireless Bureau front office, Auctions & Spectrum Access Division, and the Broadband Division to discuss an innovative approach to restructure the millimeter wave bands for potential auction(s). While the discussion generally followed the attached presentation, the central proposal centered on how to restructure the mmW bands while respecting incumbent holdings and providing a level playing field for new entrants.

The attendees of the meeting are listed in the attached exhibit.

Pursuant to the Commission's rules, this notice is being filed in the above-referenced docket for inclusion in the public record. Please contact me should you have any questions

Respectfully submitted,

Stacey Black
