Washington, DC 20554

**Re:       Petition for reconsideration of the National Radio Astronomy Observatory  
          ET Docket No. 18-39**

Dear Ms. Dortch:

Counsel for Sensible Medical Innovations Ltd. ("Sensible") has become aware that the National Radio Astronomy Observatory submitted a petition for reconsideration of the Commission's grant of Sensible's requested waivers for its ReDS System.<sup>1</sup>

We have not received service as required by the Commission's rules for petitions for reconsideration in non-rulemaking proceedings.<sup>2</sup> Sensible nonetheless reserves the right to respond expeditiously and conclude this proceeding. To the extent that an extension is needed, Sensible requests a filing deadline of Friday, November 29, 2019 by which to respond.

Please direct any questions about this submission to me.

Respectfully submitted,

/s/ Michele C. Farquhar
