Dear Sirs:

It would be in the best interest of Cable Subscribers if Cable companies would mandatorily have to install or make arrangements to install cable during any week of the month.

My current cable company, Storer South in Miami, only installs cable in the first week or last week of every month because they refuse to deal with "Half month billings." If Cable companies were not monopolies and I had another company which I could chose to service me with cable, Storer would not be able to stay in business by telling potential customers that they have to call again either on the first or last week of the month to make arrangements for installation.

Please consider remedying this unjust policy that some cable companies have.

Sincerely,

Raphael Oquendo
