Re: ViaSat, Inc., Notice of *Ex Parte* Presentation, GN Docket No. 14-177; IB
Docket Nos. 15-256 & 97-95; RM-11664; and WT Docket No. 10-112

Dear Ms. Dortch:

On November 7, 2017, Amy Mehlman, President, Mehlman Capitol Strategies, Inc., and the undersigned, on behalf of ViaSat, Inc. (“ViaSat”), met with Erin McGrath, Legal Advisor to Commissioner O’Rielly.

In the meeting, ViaSat expressed its general support for the draft order proposed for consideration at the November open meeting, and also urged greater flexibility in the deployment of protected earth stations whose emitted power flux density (PFD), measured at 10 meters above ground level, of greater than or equal to -77.6 dBm/m2/MHz, would occur entirely within an area controlled by the earth station licensee.

Please contact us if you have any questions regarding this submission.

Respectfully submitted,
