c. Point of Geographic Areas of Service Affected (47 C.F.R. § 63.71(a)(3), (b)(2)):

d. Brief Description of the Type of Service to be Affected (47 C.F.R. § 63.71(a)(4), (b)(2)):

The services to be affected are POTS, DSL and Integrated Voice and Data services ("the Affected Services") which are currently being offered via collocations that are subject to network consolidation.

2. Brief Description of the Dates and Methods of Notice to All Affected Customers (47 C.F.R. § 63.71 (b)(3)):

On November 1, 2019, Windstream sent by First Class U.S. Mail notice to all affected customers of the planned discontinuance. A copy of such notice is attached hereto as Attachment 1, which is compliant with, among other things, Section 63.71(a)(5) of the Commission's rules, 47 C.F.R. § 63.71(a)(5).

5. Additional Questions Regarding This Application May be Addressed to the Undersigned.

6. Circumstances of Discontinuance.

Over the years, a number of CLECs have become Windstream affiliates and operate as part of the Windstream family of companies. Some of these Windstream CLECs operate in overlapping markets with duplicative collocation facilities.² To improve operational efficiencies, Windstream is in the process of consolidating various collocation facilities across its network. Windstream will continue to serve its customers in each of these markets and geographic coverage will not be affected; however, the menu of services available to customers served through the consolidated collocations will change. The Affected Services are provided on end-of-life platforms that will be decommissioned in the collocations that are being consolidated. A total of eleven (11) business customers (no residential customers) will be affected. Windstream will assist affected customers, providing them options for migrating to alternative Windstream services or to move services to another carrier.

These customers will not be unduly harmed because they are being provided ample notice of the discontinuance and are being offered alternative services to the ones being discontinued. Furthermore, customers have comparable options from other providers serving these locations.

7. Conclusion

Windstream believes that the proposed discontinuance is reasonable and necessary. As outlined herein, Windstream will take reasonable steps to assure that the discontinuance of the Affected Services is not unduly disruptive to the present or future public convenience and necessity. Accordingly, Windstream respectfully requests that the Commission permit it to

² In some situations, including those customers covered by this Application, the duplicative collocations are separate collocation cages located within the same incumbent LEC central office.

discontinue the provision of the Affected Services to customers in the affected locations pursuant to Section 63.71.
