**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I've recently switched to fiber and it's a day-and-night difference. This is the standard we need to look forward when we think about the internet in America. I can work remotely without any lag, and that's one less car during commute times. I can talk to my relatives and they can participate in the life of our son much more than without the fiber.

All of that is possible because fiber is not currently monopolized between a couple of providers. But it seems that might change in the near future. Please protect citizens by allowing access to life important infrastructure to any company and not just a couple of greedy companies.

Competition is crucial in this question.
