

METHUEN, MASSACHUSETTS
FCC FILING OF PUBLIC COMMENT ON 05-311

We, the undersigned residents of Methuen, Massachusetts hereby wish to express our opposition to the FCC's Further Notice of Proposed Rule Making (FNPRM) on Cable Franchising which proposes to redefine and place a value on cable franchise obligations that have been traditionally defined as "In-Kind" and charge these "expenses" back against the franchise fee which is collected from customers and given back to the city for our Public, Government and Education channels. We believe that this essentially undermines the intent of the Cable Act.

WE VALUE OUR PUBLIC, GOVERNMENT & EDUCATIONAL CHANNELS and do not wish to see them lose funding for the important work they do in our community. We want to continue to have access to our city's meetings, high school sports, concerts and other events, and religious programming. We want to continue to have access to a facility for producing of local news, political discussions, instructional programs, art demonstrations, poetry readings and other forms of programming created by us – the citizens of this city.

Thank for this opportunity to weigh in on this proposed rulemaking.
