Re: Verizon Public Notice of Network Change(s), 47 C.F.R. §§ 51.325–51.335
Copper Retirement ID No. 2019-03-A-MD AMENDED

Dear Ms. Dortch:

Pursuant to Section 51.329(b), Verizon hereby submits an amended version of the Public Notice of Copper Retirement Under Rule 51.333, Copper Retirement ID No. 2019-03-A-MD ("Notice") that we filed on September 3, 2019. The Notice announced the planned retirement of copper facilities in 97 wire centers in Maryland.

We are removing the Hamilton (BLTMMDHM), Liberty (BLTMMDLB), and Madison (BLTMMDMD) wire centers from the Maryland Notice, and accordingly we are filing the attached Amended Notice listing the 94 wire centers remaining.¹ We will also post the Amended Notice on our website and ensure that account managers have accurate information.

As the Amended Notice removes three wire center and does not add any new wire centers; and as the Commission has not yet issued its Public Notice, this amendment will not adversely impact any interested party.

Please contact me should you need any further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jennifer Pelzman", written over a light blue rectangular background.

¹ See, e.g. 47 CFR § 51.329(b) (prior to implementation, ILECs will "amend the notice to keep the information complete, accurate and up-to-date.")

**CERTIFICATION OF PUBLIC NOTICE OF NETWORK
CHANGE UNDER RULE 51.329(a)**

On November 15, 2019, the following Public Notice of Network Change has been made by Verizon pursuant to 47 C.F.R. §§ 51.325 – 51.335.

The Public Notice(s) may also be viewed on Verizon's website at:
<https://www.verizon.com/about/terms-conditions/network-disclosures>

Title(s) of Network Notification(s):
AMENDED Copper Retirement ID No. 2019-03-A-MD

All of Verizon's copper retirement notices may be viewed on Verizon's website at <http://www.verizon.com/about/terms-conditions/network-disclosures>

Description of the planned network change(s):

Verizon intends to retire the copper facilities at all remaining locations in the ninety-four (94) wire centers listed above. Verizon has deployed or plans to deploy its fiber-to-the-premises network in these areas and intends to provide services over a fiber network infrastructure. Updating our network from copper to fiber benefits our customers because of fiber's resiliency and reliability, especially in inclement weather. Fiber also provides our customers with expanded capabilities to grow with current bandwidth demands for their home or business.

Description of reasonably foreseeable impact(s) of the planned change(s):

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities. To help ensure an orderly transition, Verizon may require customers and interconnecting entities to migrate services off of copper facilities well before the copper retirement implementation date.
