Re: Verizon Public Notice of Network Change(s), 47 C.F.R. §§ 51.325–51.335
Copper Retirement ID No. 2019-03-A-VA AMENDED

Dear Ms. Dortch:

Pursuant to Section 51.329(b), Verizon hereby submits an amended version of the Public Notice of Copper Retirement Under Rule 51.333, Copper Retirement ID No. 2019-03-A-MD (“Notice”) that we filed on September 3, 2019. The Notice announced the planned retirement of copper facilities in 85 wire centers in Virginia.

We are removing the Cameron (IDALXNVACN) wire center from the Virginia Notice, and accordingly we are filing the attached Amended Notice listing the 84 wire centers remaining.¹ We will also post the Amended Notice on our website and ensure that account managers have accurate information.

As the Amended Notice removes one wire center and does not add any new wire centers; and as the Commission has not yet issued its Public Notice, this amendment will not adversely impact any interested party.

Also attached is the August 26 *Certification of Public Notice of Copper Retirement Under Rule 51.333*; the initial September 3 submission mistakenly included a duplicate of the Rhode Island Certification.

Please contact me should you need any further information.

Sincerely,

¹ See, e.g. 47 CFR § 51.329(b) (prior to implementation, ILECs will “amend the notice to keep the information complete, accurate and up-to-date.”)

**CERTIFICATION OF PUBLIC NOTICE OF NETWORK
CHANGE UNDER RULE 51.329(a)**

On November 15, 2019, the following Public Notice of Network Change has been made by Verizon pursuant to 47 C.F.R. §§ 51.325 – 51.335.

The Public Notice(s) may also be viewed on Verizon's website at:
<https://www.verizon.com/about/terms-conditions/network-disclosures>

All of Verizon's copper retirement notices may be viewed on Verizon's website at <http://www.verizon.com/about/terms-conditions/network-disclosures>

Description of the planned network change(s):

Verizon intends to retire the copper facilities at all remaining locations in the eighty-four (84) wire centers listed above. Verizon has deployed or plans to deploy its fiber-to-the-premises network in these areas and intends to provide services over a fiber network infrastructure. Updating our network from copper to fiber benefits our customers because of fiber's resiliency and reliability, especially in inclement weather. Fiber also provides our customers with expanded capabilities to grow with current bandwidth demands for their home or business.

Description of reasonably foreseeable impact(s) of the planned change(s):

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities. To help ensure an orderly transition, Verizon may require customers and interconnecting entities to migrate services off of copper facilities well before the copper retirement implementation date.

CERTIFICATION OF PUBLIC NOTICE OF COPPER RETIREMENT UNDER RULE 51.333

I, Melissa Hefley, do hereby certify that on August 26, 2019, I caused Verizon's Public Notice of Copper Retirement Under Rule 51.333 to be served upon each telephone exchange service provider that directly interconnects with Verizon's network in the applicable area(s). Attached are the names and addresses of those providers who were served.

The Public Notice(s) may also be viewed on Verizon's website at:
<https://www.verizon.com/about/terms-conditions/network-disclosures>
