REQUEST FOR WAIVER OF 471 APPEAL

Ogden Community School District, BEN 131925

Application number: 191039053 Category 2

Ogden Community School District, respectfully requests a waiver of the 2019-20 Form 471 application to be deemed meritorious.

We are filing this waiver request today because USAC denied our appeal because we were past the 60 days after the date our decision letter was issued. We understand that USAC has rules to follow and their rationale. We believe after looking at the documents provided below will show that we were working in good faith with our PIA reviewer on trying to fix the issue of exceeding our Category 2 budget. Per the email exchange you will notice that we were going back and forth fixing the issues that they had told us each time. The last communication appeared to tell us that the numbers had been fixed and our budget was correct. Had we known that the numbers were incorrect, we would have worked on fixing them.

We hope you will find that we were trying to work within the lines of the rules and grant us a waiver that will allow us to correct the Budget to the

correct numbers. We have benefitted greatly from your program and look forward to continue to utilize it in the future.
