Applicant proposes to operate the station in the public interest, providing programming designed to entertain and inform the listening audience and to enhance the quality of life within its coverage area.

Applicant will set up procedures with which to inform itself in regards to specific problems and needs of the community and area. This will include meeting with civic leaders and seeking out specific issues and suggestions and maintaining a file of letters from the public regarding community issues. This might include providing for panel discussions, forums, or talks by civic, educational, religious, and other leaders of the community on topics of community interest. Topics and participants may be picked by the organization, by the listeners, and/or by the station.

In addition, the station will provide programming which will cover the major elements usually necessary to meet the public interest, needs and desires of the community, which include providing the opportunity for local self-expression, the development and use of local talent, programs for minorities, local news, weather, farm reports, etc.

Applicant will periodically solicit suggestions from civic leaders and listeners about these major programming elements and will evaluate and adjust its programming to be attuned to the needs and desires of the listening audience. The applicant intends to be actively involved in the community and will ascertain problems and needs on a continuing basis.
