This letter is in reference to the commercial on TV24 that shows unborn babies after abortions. I personally find it totally offensive and completely unbelievable that the candidate that is using it in his campaign has so little conscience and takes his responsibility so lightly as to run this graphic of a commercial on public television. Three times in one afternoon I turned off my television so that my three year old son would not see this disgusting spectacle. I am extremely angry that my son could be victimized by that candidate, even accidentally.

I watch what my son watches. I am a responsible parent, but it's bad enough

that almost every program  
has violence, sex, and  
disgusting behavior but now  
because of a candidate's  
greed for public office and  
the votes to get it, commercials  
now have to be watched for  
as well. The candidate  
should be aware, as well  
as the person who thought  
of it, that these commercials  
will not ensure votes but it  
will ensure anger, distrust,  
and a lack of votes.

I am personally against  
abortion as a method of  
contraception or as a way  
to get out of paying the  
price for unprotected sex,  
but this commercial is completely  
out of line. Take it off.

Dear Sir or Madame:

I am truly alarmed and offended at the 1992 Election trend I am witnessing. It appears there are several anti-choice candidates that are in the midst of running for public office for no other reason than to broadcast TV ads depicting alleged third-trimester aborted fetuses. Only 1/100 of 1% of all U.S. abortions take place during the third trimester, and then ONLY TO SAVE THE LIFE OF THE WOMAN.

I understand that TV stations are required by you (FCC) to air all federal candidate ads, even when they are deceptive, emotional and misleading. I am adding my official complaint to those you have already received on this issue. I, among so many other citizens, find this anti-choice strategy deeply offensive and urge you to block these ads immediately, permanently.

Sincerely,

*Jeralyn M. Cady*
