RE: 17-108: Restoring Internet Freedom

Dear Chairman Pai,

Please consider this notification as my stance on 17-108. It is imperative that the FCC act in the interest of consumers and fundamental freedom by preserving net neutrality. The Restoring Internet Freedom is a misnomer; it fundamentally limits the choice of consumers and denigrates America's leadership in the fore-front of freedom and freedom of access to information. I encourage you to listen clearly and intently to the resounding voices of Americans protesting 17-108. It is your obligation of FCC chairman.

Respectfully,

Alexis Duclos
