To Whom It May Concern:

I'd like to voice strong opposition and concern for allowing private and corporate entities control over internet access. Because the internet is a medium by which modern communication and exchange of information takes place I feel it is to be protected and governed under the auspices of the First Amendment. This is too vast a resource to be controlled for profit and access and speed should not be allowed to be dictated by an internet service provider. For these reasons, "Net Neutrality" should be maintained.

Sincerely,
