

To the powers of the FCC:

There should be absolutely no question about the rejection of Ajit Pai's suggestions for a "free" internet. Net Neutrality is necessary to maintain freedom of information and access for all Americans, not simply those who can afford to pay-off their ISPs.

I urge you to reject Ajit Pai's proposal and maintain Net Neutrality. Go not let greed demolish our country and prevent the feeding of its young minds.

Signed,

Hilary MacCrae
