Re: Net Neutrality

Dear Sir/Madam,

I sincerely hope you are doing everything in your power to avoid the repeal of net neutrality laws. In a blatant move for telecommunications companies and their much-too-powerful lobbyists, and against the citizens of this country, the actions of Mr. Pai (and those who assist him) cross far over the corrupt and border perilously close to the treasonous. If you still stand for the people and the future of the USA, this should currently be your number one priority. Thank you for your time and efforts in avoiding this abomination.

Sincerely,

Marcus Tillson
