Re: *Notice of Ex Parte* – Telecommunications Relay Services and Speech-to-Speech
Services for Individuals with Hearing and Speech Disabilities, CG Docket No. 03-123

Dear Ms. Dortch:

On November 20, 2017, Erik Strand of MachineGenius, Inc. and the undersigned met with Claude Aiken, Wireline Advisor to Commissioner Clyburn, in order to demonstrate the Company's Olelo solution and discuss the use of speech recognition and its applications in providing telecommunications relay services.

Mr. Strand answered questions regarding functionality, technical implementation, delivery costs, availability, and goodness-of-fit of the Olelo solution and presented a live demonstration of the Olelo solution. Mr. Strand also presented slides related to the Olelo solution that have been previously presented in MachineGenius' *ex parte* meeting at the Commission on August 29, 2017.¹

We also discussed MachineGenius' pending Application to become certified as an IP CTS provider, and its merits as outlined in the Application itself.

¹ These slides have been previously filed with the Commission with MachineGenius' *ex parte* notice, dated August 31, 2017. Because the slides contain commercially-sensitive non-public data, the disclosure of which could cause substantial harm the Company's competitive position, MachineGenius requested that these slides be accorded confidential treatment pursuant to Section 0.459 of the Commission's Rules. 47 C.F.R. § 0.459.

Marlene Dortch, Secretary
Federal Communications Commission
