

Hiya, I'm a native resident of El Cajon, California. Please don't get rid of NET NEUTRALITY and keep the internet as a public utility. Our county's internet just got throttled by Cox digital cable and just received a price hike. But there's not much we can do because our two network providers have a non-compete clause. Giving them more power will only mean less competition and more stagnation within the area.

So please, keep Title II and maintain NET NEUTRALITY.

Thanks for reading.

A concerned citizen.
