

Dear FCC, I am a strong supporter of Net Neutrality / Title 2 of the Communications Act of 1934 and Section 706 of the Telecommunications Act of 1996. I along with many other frequent internet users believe repealing Net Neutrality will be a grave mistake in congress. Ending Net Neutrality will essentially give ISP's the power to control information and our first amendment rights on the internet. They will have the power to slow down or downgrade internet speeds to websites that they choose to not like. The internet community stands behind Net Neutrality and we hope that Congress will make the right decision. Thank you for your time and consideration.
