

I urge you to continue the FCC's plan to end net neutrality and make the internet a slave market. As the saying goes "It's all in the name of **PROFIT!**"

I want ISPs to have the power to block websites, slow them down, give some sites an advantage over others, **DICTATE** the Internet, force people to bow at their feet and beg for mercy.

Blocking & throttling by ISPs is a start for internet slavery. Comcast throttles Netflix, AT&T blocks FaceTime, Time Warner Cable throttles the popular game League of Legends, and Verizon will introduce fast lanes for sites that pay-and slow lanes for everyone. This will make consumers and businesses large and small bow in the name of **PROFIT**.

"If some companies can pay ISPs to have their content load faster, startups and small businesses that can't pay those fees won't be able to compete." (Oh, so sad to hear but please take this **PROFIT** dildo up your ass) This will dictate and dominate the open marketplace that has enabled millions of small businesses and created America's 5 most valuable companies. Without strong net neutrality protections, Internet providers will effectively be able to dictate and enslave every sector of the American economy.

Moreover, under Chairman Pai's plan, ISPs will be able to enslave and dominate political speech that they don't like. They'll be able to charge fees for website delivery that would make it harder for blogs, nonprofits, artists, and others who can't pay up to have their voices drowned in a pit a despair and agony.

The FCC will pass their current order, every Internet user and business in this country will bow to this abuse by Internet providers, and the PROFIT will be amplified. Please publicly accept net neutrality destruction by praising the FCC's current plan. Do whatever you can to help Chairman Pai, to ensure that businesses and Internet users remain dominated and broken in the name of **PROFIT**.

PROFIT!
